New Meeting Day & Location

In case you missed the last meeting, the majority of our attending members not only voted to change the meeting location, but also the day on which we meet. Therefore we are now meeting on the **third Tuesday** of the month at 7 p.m. So, we'll see you on the 19th!

We have a beautiful hobby, yet it can be a heavy load when carrying glass supplies and projects. We all look forward to once again having a short walk from our car to the meeting room.

Starting this month, we will now meet at the Evergreen Branch Library in Wichita. The address is 2601 North Arkansas, at the intersection of Arkansas and 25th

Street North. Arkansas is the next major street east of Amidon. This is a familiar location for many of us. It is the same building where City Arts used to be located, where many of our members took stained glass lessons from Roy. If you are driving on I-235, simply take the 25th Street exit. The library is then at the second stop light as you head east.

Gloria teaches stained glass classes at the Delos Smith Center in Hutchinson. She could use any donations of scrap glass for her students.

If you can volunteer any time on April 19th & 26th between 9 a.m. & 3

p.m., Ruthie at City Arts would appreciate help with the 3rd graders learning about stained glass. This is the program that Roy started with the school kids, where they make a glass nugget piece. Ruthie can be reached at City Arts, (316) 462-2787.

Meeting News

Troy Welty, of Mathews Gallery, has graciously agreed to provide us with a soldering demonstration for April's meeting. Troy has impressed us time and again with his soldering skills. Is it something we

can learn, or just an innate ability that he has? Come to the meeting and find out.

Rose Ann Frey signed up to bring the snacks this month. And, Norene Haynes promised to have

the coffee ready. Thank you ladies!!

We look forward to Kathy Dawson and Clint Woodward giving the demonstration for May's meeting.

It's A Contest!

Gloria had a great idea at the March meeting. She decided that it's time again for a contest. It was decided that members should bring a completed piece to the April meeting. The fun part is to see how creative and talented our members are. We will then vote on the entries. Gloria said she has a nice prize for the winner.

Pay Your Dues!

One benefit of Stained Glass Guild of Kansas membership is the discount we are given when we shop at either Rayer's Bearden Stained Glass Supply or Mathews Gallery. Those businesses now have a list of our current members. If you haven't paid your dues yet, you are not on the list. Therefore, you won't be able to take advantage of receiving a discount on your purchase.

We're on the web!
